LOGGING CONTACTS

Purpose of this Handout

To provide an example of a log book page and an example of how a contact might be logged.
To provide a space for you to log the contact you will make during your merit badge efforts.

	Frequency		Power	Time	Station	Report		Time Off	Comments	QS
Date	(MHz)	Mode	(watts)	(UTC)	Worked	Sent	Rec'd	(UTC)	Name, QTH, notes, etc.	S
Examples										
15-Oct-03	14.265	SSB	100	1455	W7SPC	57	59	1503	Elsie Porland, OR Nurse	√
									Sister of Bill, KF5NZD	
03-Jan-04	146.70	FM	25	2232	KF5NZD	59	59	2233	Bill Bosque Farms, NM	
	repeater								Invited her to club meeting when she visits Bill.	
17-Jan-03	146.52	FM	5	2246	NM5JOE	53	43		Joe Belen, NM	
									Verfying HT simplex works between us	
Room for You to Practice and to Log Your Merit Badge Qualification Contact										

Notes VHF contacts (the last two examples) are usually not logged, but are shown here since this frequency may be used fory your contact.
Including notes in the log is not required, but makes it fun when looking back to remember things about the other operator.
Some operators do not log the time off.
Some operators keep their logs on computers.
